"PARROT" BRAND.

A choice biscuts is a high product of the baker's art. A biscut to be choice should be dainty in make-up, delicate in flavor and have in it only the best and choicest material. This is the description of the PARROT BRAND of goods which we are now offering to the New York public direct from our extensive biscuit and cracker works on West st., from Bethune to West 12th st.

When we sent our biscuits on from the West they were accorded a hearty and appreciative elcome from the dealers and consumers of the Metropolis and vicinity. but now that our new factory is open and we have commenced baking we hope to give even better satisfaction than before. Our aim always will be to make a product which is as nice as it is possible for a biscuit to be, and then to pack them so neatly and ornately that the eye shall be pleased before the palate is gratified. We have no fear of the popular verdict if a fair trial is made between our goods, the Parrot Brand, and those of any other concern in the country, and in this trial dealers and diners will find themselves free from any domination in a trade so important as one having to do with a staple food product. A liberal and progressive policy will be followed both in our manufacturing and business departments. Those who have not as yet had an opportunity to try our goods ought to ask their grocer at once for some of the Parrot Brand as sent out under our registered trade-mark A first trial will certainly give satisfaction, since only high-class goods in artistic and beautiful

packages will be found coming from our factory. The large investment made in our extensive modern plant indicates that we have come to stay. and we will stay upon our record as masters of the art of cracker and biscuit making. Very respectfully.

"There ran a rumor through the new town one day that a stranger tramp had suddenly been smitten with small-pox, and that the epidemic was in danger of spreading.

"The rumor meant ruin to the embryo municipality, and so the friendless and stricken man was hurried out on the prairies, far from the city, and left there in a log cabin to do the best he could for himself.

"There was no one to care for him, and of course it was a wrestle with death. In his dingy one room editorial and printing office Preston B. Plumb heard the story. He closed the place, started out to the log house where the sick man lay, and for weeks nursed him and cared for him until he was saved from death. Then he lay down himself, stricken by the fell disense; but hearts had grown tenderer in that Kansas town and kindly hands ministered to him until he, too, was saved."
